

Etermax, the mobile world's interactive entertainment company, is launching its 8th game

Buenos Aires, November 25, 2016 – The creators of *Aworded Crack* and *Trivia Crack* -the 5th most played app in the world- have announced the release of *Melody Monsters*, an exciting match-3 puzzle game where music takes on a leading role in a journey through different backdrops and challenges.

Young Melody invites users on a fun adventure in a musical world where evil villains will try to silence her incredible tunes. The game will take you through musical genres like classical music, jazz, rock & roll, reggae, disco and many more, all of which are depicted in magical lands inhabited by musical monsters.

“*Melody Monsters* is Etermax’s new initiative into which we have poured all the know-how and experience we’ve acquired in the development of games for the whole family. In this way, we have created a game which combines all the addictive elements of puzzles with something that can be understood by every generation and every culture: music.” – said Ezequiel Mottillo, Creative Director of Etermax.

The company’s new game will serve as an introduction to the most relevant musical genres in history. In each stage, users will recognize melodies from the genre’s most influential artists as they learn fun facts about these musical styles along the way.

“We want to give users a new challenge that mixes fun and wit. Our aim is to create an environment where these elements can be combined with the discovery of new music in a natural and effortless way while we provide a fun learning experience to families both within and outside academic settings.” – announced Maximo Cavazzani, Etermax CEO.

Melody Monsters is currently available for free in the iOS and Android app stores and can be downloaded in 17 languages: Spanish, English, Portuguese, French, Italian, German, Dutch, Catalan, Russian, Norwegian, Swedish, Finnish, Greek, Turkish, Japanese, Korean and Chinese.
